Will Be Heard in Orleans County Court This Week.

Newport, Sept. 16.—Orleans county court was convened last week with Judge Taylor on the bench in place of Judge Miles, who was disqualified in French vs. Orleans County Fair Ground association, by being counsel in the case previous to his election as judge. The case occupied three days and went to the jury Friday at about five o'clock. The jury after working out all night came in Saturday morning, reporting a disagreement.

The case of state vs. George E. Howard is set for September 23.

The Miles murder trial will be held the last of October.

TRIED TO LYNCH MOTORMAN.

Italians Enraged Because Boy Was Killed by His Car.

New York, Sept. 16.—With clubs and revolvers drawn, a squad of reserve policemen from the East 104th street station fought a mob of infuriated Italians numbering thousands who tried to lynch (Garrett) Morrisey, a motorman on the second avenue surface line last night after his car had run over and killed a nine-year-old boy. To save him from the wrath of the mob, it became necessary to lock him in a store.

In the meantime the car was lifted from the track, thrown on its side, regardless of passengers in it, and wrecked. The crowd grew to such proportions that it packed more than four blocks. Traffic was tied up on the line and a riot of serious proportions was threatened, but the police after half an hour's dangerous work restored order.

Eighty persons were killed and 23 injured in 90 accidents this year, as against the previous record, 70 fatalities in 1906 in 71 accidents. RIG SMASHED TO PIECES.

Johnson Hurdled One Way—Horse Another—Trolley Car Did It.

Rutland, Sept. 16.—A Rutland Street Railway company trolley car struck the rig of R. Johnson of Chippenook at a crossing in Center Rutland late yesterday afternoon. Spain's Popular Beverage.

"Horchata de chufa" is the singular name of the most popular drink in Madrid. This is made from a nut called "chufa," yielding a milky liquid when reduced to a pulp. This is diluted with water and forms a most cooling and refreshing drink. However, it is an acquired taste. Very few like it at the first trial. The horchata may be made from different kinds of nuts. The almond is used also. Strange to relate, the horchata de chufa is always sold where matting is kept for sale, so that when you spy a roll of the latter outside the store door it is a sufficient indication that in that particular place you may procure a glass of the horchata. In spite of inquiries, I was unable to discover the origin of the singular combination of articles on sale.—London Truth.

A Lost Opal.

The finest opal of modern times belonged to the Empress Josephine. It was called the "Burning of Troy." Its fate is unknown, as it disappeared when the allies entered Paris.

Diamond Cutting.

Diamonds are cut in three different forms—the rose, the brilliant and the table, of which the second is the prettiest. It is a double pyramid or cone of which the top is cut off to form a large plane and at the bottom, directly opposite, to a small plane.

Brilliant Hair.

Our ancestors, the Saxons, dyed their hair blue, green or orange, according to taste.

The Wakamba.

The Wakamba, a native tribe of Uganda, had a decimal system of their own when first discovered by white men. Scientists say they are the most highly civilized of all black races.
